VOLUNTEERS NEEDED
Fill out a questionnaire and help make a difference.

What is the study about?
Researchers at The University of New South Wales and the Autism CRC are seeking volunteer research participants from the general population to complete a questionnaire about their health and wellbeing. We hope that this nationwide study will better our understanding of the health and wellbeing of autistic adults in Australia.

What’s involved?
You will complete a questionnaire about your health and wellbeing. You may choose to complete it either online or via paper copy.
You can stop being a part of the study at any time.

Will I be paid?
You will not be paid for taking part in this study. However, you will be making a highly valuable contribution to assist in improving the lives of adults on the autism spectrum.

Who can participate?
• Adults aged 25+
• Living in Australia
• You do not have to be autistic
